

# ***International Photovoltaic Solar Energy Conference*** **(Solar Asia - 2015)**

Savitribai Phule Pune University, India

30<sup>th</sup> July - 1<sup>st</sup> August 2015

## **First Announcement**

Dear Solar Energy Researchers,

International Photovoltaic Solar Energy Conference (Solar Asia - 2015) on solar energy materials and solar cells will be held at Department of Physics, Savitribai Phule Pune University (formerly known as University of Pune), India on 30<sup>th</sup> July - 1<sup>st</sup> August 2015. This is the third conference in the series followed by two successful conferences held in Sri Lanka (2011) and Malaysia (2013).

This conference series has been initiated to share new solar energy knowledge among research scientists, engineers and manufacturers to discuss scientific research and ground breaking technological development to accelerate the renewable energy applications particularly in the Asian region. The website with more information will be available shortly with abstract deadlines and other information. This preliminary announcement is to enable interested researchers to reserve the dates in their busy diaries so that they can participate in this important event.

### **Conference Topics:**

1. Materials for solar cell applications,
2. Silicon and related materials,
3. Development of High-efficiency solar cells,
4. Type of solar cells;
  - Inorganic thin film solar cells,
  - Nano-structured thin film solar cells,
  - Dye-sensitized solar cells,
  - Hybrid organic-inorganic solar cells,
  - Perovskite and quantum dot solar cells,
  - Solar energy materials and device stability
5. Theoretical modeling at material and device level,
6. Solar building architecture, etc.

International Photovoltaic Solar Energy Conference (Solar Asia -2015)

Local Organising Committee,

Department of Physics,

Savitribai Phule Pune University,

Pune, 411007, India
