International Conference on Recent Advances in Condensed Matter Physics and Complex Systems
30 October to 1 November, 2017

Savitribai Phule Pune University
(Formerly Known as University of Pune)
Pune - 411007, India

About The Conference
The conference aims to bring together researchers in the broad areas of Condensed Matter Physics and Complex Systems to deliver talks, discuss and exchange new ideas on recent advances in these fields. The conference will feature talks by leading experts and eminent personalities on a wide variety of topics including Density Functional theory, Electronic structure and application to Atomic, Molecular and Condensed Matter Physics, Nano-scale Physics, Superconductivity, Bose-Einstein Condensation, Statistical Physics, Complex Systems, Non-Linear Dynamical equations and their applications in physical and biological systems, etc. We hope that the conference will provide an opportunity to learn about the latest research trends in the general areas of Density functional theory, Condensed matter physics and Complex Systems. While all talks are by invitation only, we also invite young faculty members and researchers, post-doctoral and doctoral students as participants. Participation will be solely by selection. The format for application is given along side.
